

Student Support Program

The General McLane High School Student Support Program is intended to find help for students who are experiencing problems which are interfering with their education. The Student Support Program works with a wide variety of problems including drugs and alcohol, depression, suicide, eating disorders, co-dependency issues and other family problems.

The Student Support Program does not counsel students or provide therapy. The role of the teachers involved in the program is to work with students and parents to find out what is causing inappropriate behavior and what professional resources are available to help solve the problem.

Referrals to the Student Support Program may come from any source: parents, students, teachers, administrators, law enforcement agencies, activity advisors, and coaches. To make a referral you may talk with any member of the Student Support Program core team or give any member a written note. Anyone who is concerned about a student and has observed inappropriate behavior may make a referral. The person making the referral may request that his or her name not be revealed. For more information about the Student Support Program, see any SSP Core Team member or seek information in the guidance or main office.

Core Team Members include the GMHS administrators and faculty.
