

Academy of Medical Arts and Engineering

FALL 2013

Junior Shadow Experiences Begin

Students in the Academy are required to complete two full-day shadow experiences. Our first two shadows will take place this week. Josh Valerio will be working with Dr. Gary Means at Kids Teeth and More on Wednesday, November 13. Lisa Yoder will be at Hertel & Brown Physical Therapy on Thursday, November 14.

✘ Academy Students Attend Lord Manufacturing ✘

The students in the Academy spent the morning with engineers and employees of Lord Corporation on October 4. The students toured the Cambridge Springs plant and spoke with employees. They were able to watch various components being produced.

SPEAKER SERIES

The Academy Speaker Series kicks off during Activity Period on November 20. Our featured medical speaker is Dr. M. Peter Scibetta, oncologist and founder of the Regional Cancer Center. He will be speaking in Room 504.

The PSU Behrend Engineering department will be doing a presentation on plastics engineering in Room 502.

Academy students are required to attend one of these presentations. Other interested students are welcome to attend as well.

PSU Behrend Women in Science and Engineering Day

The girls in the Academy will be attending Behrend's annual Women in Science and Engineering Day on Friday, November 22. The students will participate in three to five problem-solving and design teams constructing and designing such

things as wind mills, water filtration systems, and electrical circuits. The girls will be in attendance at the event from 8:00 am to 2:45 pm.
