Biomedical Engineer
Medtronics Corp., Pittsburgh

✂ Guest Speakers Bring Expertise to GMHS ✂

The Academy Speaker Series brought the expertise of two local professionals to GM in December. Local civil engineer, Steve Halmi led the engineering students through a the workflow simulation for a typical project, from budgeting to architecture and environmental concerns. He also shared details of some of the recent projects his firm has completed.

Kathy Zboyovski from LECOM did a presentation on opportunities in pharmacy for the medical students. She covered course requirements, the typical day for a pharmacy student and pharmacist, and requirements for admission to a school of pharmacy.

2014 Ethics Conference Tuesday, March 11

Academy juniors will attend a one-day Ethics Symposium sponsored by the Rotary Club of Erie on March 11. Over 250 Erie-area high school juniors will participate. All participants will view a multi-media opening presentation, followed by

small breakout sessions. Lunch will be shared with Rotary businessmen and women. The day will conclude with an open-mic panel discussion.
