

Good Evening Senior Parents. This is Dan Mennow, principal of the high school. This year the guidance department will be using a web based tool called Naviance to help seniors with college and career search options. Naviance will also be used to process transcript requests, letters of recommendation, and track college applications. This past Thursday, seniors received log in information and a video explaining how to access key features in Naviance. Students have access to this information in the Schoology Class of 2021 Group. Additional resources including important forms and links can be found in the Schoology Group under the resource tab on the left hand side.

The guidance department will be holding workshops, both virtual and in-person, for seniors to learn more about Naviance and senior year activities in upcoming weeks.

It is vital that students continue to check Schoology for important information regarding senior year activities. Parents can also keep up to date with activities by checking the GM Class of 2021 Page on the high school page on the district's website. Information on this page includes the September 28th PHEAA Virtual Financial Aid Night Webinar and a link to register.
