

Weekly Update: COVID-19

October 18, 2020

Dear GM Lancers,

Our School District is happy to report **zero** cases within our staff and student body through October 18. A BIG, “Thank you!” to all the families keeping ill students at home. This year would not be going this smoothly without the full participation of our parents. Your effort does not go unnoticed!

A commonly asked question among our school community is, “**What if someone in my household is being tested?**”.

If someone in your household is having symptoms consistent with COVID-19, a test may be ordered by your physician. The Department of Health recommends that **only the person being tested must stay isolated**. The other members of the household may attend school or move about the community as long as they are not having symptoms. If the test comes back positive, the other members of the household will have to quarantine.

As always, please reach out with any COVID questions/concerns.
