
District Budget Feedback

GENERAL MCLANE
S C H O O L D I S T R I C T

May 2022

GMSD sought input regarding the district budget in the context of the financial situations we've been discussing throughout the year. Input informed and provided context as the school board considered approval of the final budget for 2022-2023 and also future financial decisions.

Of the Four Priorities that Dr. Lane identified in his 100 Days presentation, Fiscal Responsibility and focus on long-term fiscal solvency for GMSD is of the utmost importance, along with Student-Centered Learning, Safe/Inclusive Schools, and a Strategic Plan that focuses on the Profile of a Graduate.

The topics and sections mirror those discussed by the Long-Term Budget Planning Committee and presented to the school board in November. More information about federal ARP-ESSER funds can be found on the district web page in the section for the business office.
