INDEPENDENT AUDITOR'S REPORT

Board of Directors General McLane School District Edinboro, PA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of General McLane School District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the school district's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the General McLane School District, as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3-9 and 41-45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statement, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the General McLane School District's basic financial statements. The individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2017, on our consideration of the General McLane School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering General McLane School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) Required Supplementary Information (RSI) June 30, 2017

The discussion and analysis of General McLane School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017 with comparative information for the previous year. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

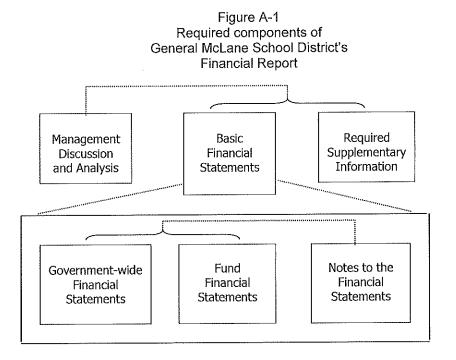

OVERVIEW OF FINANCIAL STATEMENTS

The first two statements are government-wide financial statements – the Statement of Net Assets and the Statement of Activities. These provide the District's long-term and short-term financial information.

The remaining statements are fund financial statements that are focused on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements contain information about how District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about activities that the District operates like a business. Fiduciary fund statements contain information about situations where the School District acts solely as a trustee or agent to safeguard resources that belong to other groups or entities.

The financial statements also include notes to explain certain selected information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

Government-wide Statements

The government-wide statements contain information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements are used to report the District's net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position. Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively. To assess the overall health of the District, additional non-financial factors must be considered, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants are used to finance most of these activities.
- Business type activities —The District has a food service operation and charges fees to staff, students and visitors to cover a portion of the operation's costs.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law or by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where reporting is focused on determining net income, financial position, changes in financial position, and a significant portion of funding is from user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities reported in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for certain scholarship and student activity funds. All of the District's fiduciary activities are report in separate Statements of Fiduciary Net Assets. These activities were excluded from the District's other financial statement because the District is not permitted to use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

| Total Net Position | (\$3,604) | (\$801) | (\$4,405) | (\$1,643) |

Beginning with the fiscal year ended June 30, 2015, the District has been required to report its proportionate share of the Pennsylvania School Employees Retirement System ("PSERS") pension related liabilities, expense, deferred outflows and deferred inflows under GASB Statement 68.

Most of the District's net assets are invested in capital assets (buildings, land, and equipment). The remaining net assets are either restricted or unrestricted. Restricted assets are amounts reserved for special termination benefits, inventories, and encumbrances. A portion of the district's unrestricted funds has been designated for future debt service payment on existing bonds.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-2 is a presentation of the information from the Statement of Activities in a different format. It shows a \$434 thousand increase in revenues and a \$6.1 million increase to expenditures from the prior year.

| Total needed from Local Taxes & Other Revenues | | <u>\$16,851</u> |

THE DISTRICT FUNDS

At June 30, 2017, the District governmental funds had a combined fund balance of \$20.1 million, which is a decrease of \$0.2 million from the prior year.

GENERAL FUND BUDGET

For the 2016-17 fiscal year, the Board increased real estate taxes 1.35% over the previous year and projected a \$495,966 use of fund balance. However, actual revenues exceeded expenditures by \$606,859 resulting in a corresponding increase to the fund balance.

Table A-4 summarizes the general fund revenues and expenditures comparing budget to actual results.

Table A-4Fiscal Year ended June 30, 2017

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2017, the District had \$25.6 million invested (net of depreciation) in a broad range of capital assets, including land, buildings and furniture and equipment. This amount represents a net decrease (including additions, disposals and depreciation) of \$0.7 million or 2.7% from June 30, 2016.

Table A-6
Governmental and Business Type Activities
Capital assets net of depreciation (in \$000)

| | 2017 | 2016 |
|-----------------------|--------|--------|
| Land | \$ 516 | \$ 516 |
| Buildings | 22,337 | 22,965 |
| Furniture & Equipment | 2,789 | 2,840 |

DEBT ADMINISTRATION

As of July 1, 2016, the District had total outstanding bond principal of \$2,495,000. During the year, the District made the final principal payments of \$2,495,000 leaving no outstanding debt as of June 30, 2017.

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about long-term liabilities is included in Notes 9 and 10 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

2017-2018 BUDGET OVERVIEW

For the 2017-2018 school year, General McLane adopted a general fund budget totaling \$34.4 million. This budget includes costs to educate approximately 2,200 students in four buildings. The budget did not include an increase in real estate taxes and a \$2.4 million use of fund balance.

FINANCIAL TRENDS

Over the last three decades, the percentage of school costs paid by the state has decreased. During the early seventies, the state paid approximately 50% of instructional costs. Today that number is around 35% for many districts. The state has considered several proposals to increase its share of school funding. Because General McLane currently receives 55% of its revenue from the state, any change would have a major impact on real estate taxes and the district's budget. The Taxpayer Relief Act (Special Session Act 1 of 2006) provided tax relief options through increased funding for the state's Senior Citizens Property Tax and Rent Rebate Program, an annual inflationary cost index limit for real estate tax increases, an installment payment option for real estate taxes for homestead owners and potential state gaming revenue to provide homestead real estate tax relief. Approximately 3,900 property owners will realize real estate tax relief from gaming revenues during 2016-2017.

The biggest challenges facing the district are retirement contributions and cyber/charter tuition payments. The District's share of retirement is projected to increase from 30.57% of payroll to 31.56% in 2018-2019. Tuition paid to cyber/charter schools totaled about \$410,000 in 2016-17.

General McLane has provided residents with above-average education for a below-average cost. The district will continue to operate as efficiently as possible without adversely affecting the quality of education provided.

CONTACTING DISTRICT FINANCIAL PERSONNEL

This financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the District's finances and to show the Board's accountability for the money it receives. If you have questions about this report or wish to request additional financial information, please contact Bill Fendya, Business Manager at General McLane School District, 11771 Edinboro Road, Edinboro, PA 16412 (814) 273-1033, extension 5903.

GENERAL MCLANE SCHOOL DISTRICT

RECONCILIATION OF THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE

TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2017

| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of fthese assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period. Depreciation Expense Capital Outlays Governmental funds report bond premium as revenue. However, in the statement of activities, the bond premium is allocated over the bond life. This is the amount by which the revenue exceeded amortization in the current period. In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of fixed assets sold. Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year. Payment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the statement of activities, certain operating expenses-compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount search versus the amount used. On the statement of activities, certain operating expenses-compensated absences are measured by the amounts earned versus the amount used. On the statement of activities of current financial resources used. This amount represented the difference between the amount earned versus the amount used. Interest on long term debt in the statement of activities of financial resources in the statement of activities, interest expense is recognized as an expenditure in the funds when it is due. Interest on long term debt in the statement of activities | Net Change in Fund Balance - Governmental Funds Amounts reported for governmental activities in the statement of net position are different because: | | \$ (227 | 7,085) |
|--|--|-------------|----------|-------------|
| Governmental funds report bond premium as revenue. However, in the statement of activities, the bond premium is allocated over the bond life. This is the amount by which the revenue exceeded amortization in the current period. In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of fixed assets sold. Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year. Payment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In the statement of activities, certain operating expenses-compensated absences are measured by the amount genuine the difference between the amount earned versus the amount sed. On the statement of activities the actual and projected amount of long term expenditures for these items are measured by the amount earned versus the amount used. 22,869 On the statement of activities the actual and projected amount of long term expenditures for post employment benefits are reported whereas on the government funds only the actual expenditures are recorded for post employment benefits. Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accord, regardless of when it is due. The additional interest accrued in the statement of activities over the amount due is shown here. 25,990 Governmental funds report district pension contributions as expe | the cost of those assets is allocated over their estimated useful lives as depreciation expense. This | | | |
| bond premium is allocated over the bond life. This is the amount by which the revenue exceeded amortization in the current period. (3,431) In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of fixed assets sold. Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year. Payment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,495,000 In the statement of activities, certain operating expenses-compensated absences are measured by the amount of financial resources used. This amount represented the difference between the amount earned versus the amount used. On the statement of activities the actual and projected amount of long term expenditures for post employment benefits are reported whereas on the government funds only the actual expenditures are recorded for post employment benefits. Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrued, regardless of when it is due. The additional interest accrued in the statement of activities, over the amount due is shown here. 25,990 Governmental funds report district pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense. District pension contributions Cost of benefits ea | | • | (635 | 5,215) |
| the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the book value of fixed assets sold. (30,536) Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues decreased by this amount this year. (28,018) Payment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,495,000 In the statement of activities, certain operating expenses-compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used. This amount represented the difference between the amount earned versus the amount used. 22,869 On the statement of activities the actual and projected amount of long term expenditures for post employment benefits are reported whereas on the government funds only the actual expenditures are recorded for post employment benefits. 113,830 Interest on long term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. GENERAL MCLANE SCHOOL DISTRICT NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2017

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of General McLane School District (the District) have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

REPORTING ENTITY

The General McLane School District operates two elementary schools, one middle school, and one high school in Edinboro, Pennsylvania. The District operates under current standards prescribed by the Pennsylvania Department of Education in accordance with the provision of the school laws of Pennsylvania. The District operates under a locally elected nine-member Board form of government.

In evaluating the school as a reporting entity, the school includes all funds that are controlled or dependent on the School District. Control by or dependence on the School District was determined on the basis of budget adoption, taxing authority, outstanding debt secured by revenues or general obligation of the School District to finance any deficits that may occur or money received for the benefit of the students of General McLane School District. This report presents the activities of General McLane School District and its blended component unit, the General McLane School Foundation. The Foundation issues its own financial statements. A copy can be obtained by contacting the Business Manager at General McLane School District.

The following joint venture is not a component unit of General McLane School District and is not included in this report.

Erie County Area Vocational Technical School (AVTS) is a separate legal entity. The district is also a participant of the Vo-Tech School with ten other Erie County school districts. Each district participating in the joint venture elects one member of the Operating Committee (Joint Board) and is responsible for a portion of the AVTS operating budget, based on the district's total enrollment and the district's share of student enrollment at the Vo-Tech School. The AVTS issues a publicly available financial report, which may be obtained by writing to Erie County Technical School, 8500 Oliver Road, Erie, PA 16509.

Jointly Governed Organization

Erie County Intermediate Unit #5 is a separate legal entity that provides services for fees to participating districts. It was organized by the constituent school districts in Erie County to provide services to the school districts. Each member school district appoints one member to serve on the Board of Directors of the IU #5. The district contracts with the IU for services for district students.

Basis of Presentation

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the School District as a whole. These statements include financial activities of the primary government, except for fiduciary funds. The statement of net position presents the financial condition of the governmental activities of the School District at year end.

The statement of activities presents a comparison between district expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District. Taxes are always general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund financial statements are provided in the report for all governmental funds, proprietary funds, and the fiduciary funds of the School District. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds principal ongoing operations. The principal operating revenues of the school district's enterprise fund are food service charges. Operating expenses for the school district's enterprise fund include food production costs, supplies, administrative costs and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as nonoperating revenue and expenses.

MANAGEMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are reported when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net assets (total assets less total liabilities) are used as a practical measure of economic resources and the operating statement includes all transactions and events that increased or decreased net assets. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net position.

The government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e. revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues as soon as they are both measurable and available and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on long-term debt, which is recognized when due. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the fiscal period.

The Proprietary Fund types are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net assets, and unrestricted net assets.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed for proprietary activity financial statements to the extent that those standards do not conflict with or contradict guidance of the GASB.

FUND ACCOUNTING

The District reports the following major governmental funds:

The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be in another fund.

The *capital projects fund* accounts for transfers from other funds and related investment earnings for capital acquisition or construction of major capital facilities not accounted for in another fund.

The District operates one enterprise fund, the *food service fund*. This fund accounts for the activities of the District's food service program.

The District accounts for assets held by the District in trustee capacity in a *trust fund*. The District has an Elementary School Trust, which accounts for elementary school student needs. The District is also including the General McLane Foundation as of June 30, 2017.

The District accounts for assets held as an agent for various student activities in an agency fund.

BUDGET AND BUDGETARY ACCOUNTING

An operating budget is adopted prior to the beginning of each year for the General Fund on a modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

Legal budgetary control is maintained at the sub-function major object level. The Board of School Directors may make transfers of funds appropriated to any particular item of expenditure by legislative action in accordance with the Pennsylvania School Code. Management may amend the budget at the sub-function/sub-object level without Board approval. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments. The Board of School Directors didn't make any supplemental budgetary appropriations throughout the year.

In order to preserve a portion of an appropriation for which an expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year end are reported in the fund financial statements as reservations of fund balances.

OTHER ACCOUNTING POLICIES

A. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less.

B. INVESTMENTS

Under The Public School Code, the District is permitted to invest its monies as follows:

- 1. United States Treasury Bills;
- 2. Short-term obligations of the United States Government or its agencies or instrumentalities;
- 3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the FDIC and,
- 4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political Subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.

All investments are reported at fair value. Fair value is determined using selected basis as follows: securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates and investments that do not have an established market are reported at estimated fair value.

C. RECEIVABLES AND PAYABLES

Activities between funds that are representative of lending/borrowing arrangements outstanding at the year end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the government activities and business-type activities are reported in the government-wide financial statements as "internal balances."

D. INVENTORIES

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

A physical inventory of the Food Service Fund food and supplies was taken as of June 30, 2017. The inventory consisted of government donated commodities, which we have estimated fair market valued, and purchased commodities and supplies both valued at cost using first-in, first-out (FIFO) method.

E. PREPAID EXPENSES

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items (consumption method) in both the government-wide and fund financial statements.

F. CAPITAL ASSETS

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government wide financial statements. Capital assets are defined by the school district as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add value to the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives.

| <u>Assets</u> | <u>Years</u> | <u>Assets</u> | <u>Years</u> |
|-----------------------|--------------|-----------------------|--------------|
| Building | 40 | Computer Software | 5 |
| Building Improvements | 20 | Textbooks/Periodicals | 7 |
| Land Improvements | 20 | Furniture/Equipment | 10-20 |
| Vehicles | 8 | | |

-25-

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis over 5-15 years.

G. LONG-TERM OBLIGATIONS

In the government-wide financial statements, and proprietary fund types in the financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business type activity columns in the statement of net position. Bond issuance costs are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums, discounts and bond issuance costs, during the current period. The face amount of debt is reported as other financing sources, while discounts on debt issuance are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

H. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

I. EXTRAORDINARY AND SPECIAL ITEMS

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the controls of the Board of Education and that are either unusual or infrequent in occurrence. Neither type of transaction occurred during the fiscal year end June 30, 2017.

J. COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB No. 16, Accounting for Compensated Absences. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributed to services already rendered and it's probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving pay in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for all employees with more than one year of service.

The entire compensated absences liability is reported on the government-wide financial statements.

For government funds, the current portion of unpaid compensated absences is in the amount expected to be paid using expendable available resources. The noncurrent portion of the liability is not recorded.

K. FUND BALANCE REPORTING

The District has adopted GASB 54 as part of its fiscal year reporting. The intention of the GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance classifications and the constraints imposed on the uses of those resources.

Nonspendable: This category includes the resources of imprest funds and inventories not available for appropriation. The School's nonspendable fund balance consists of prepaid expenses.

Committed items: This category includes items that contain self-imposed constraints of the government from its highest level of decision making authority. The School Board has committed a portion of the fund balance to pay for future PSERS rate increases, future OPEB expenditures, health claims, uncompensated absences, and for sewage disposal.

Assigned items: Assigned items represent the School Board's intent to use certain resources for assigned purposes.

Unassigned: This represents the remainder of the School Board's equity in governmental fund-type balances. The School does not currently have a minimum fund balance policy. The School policy is that assigned funds will be reduced first and then unassigned amounts for future PSERS rate increases, future OPEB expenditures, health claims, uncompensated absences and sewage disposal.

L. UNAMORTIZED ISSUANCE COSTS/BOND PREMIUM

In the government-wide statement, bond premiums are deferred and accreted over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds.

For bond refunding resulting in the defeasance of debt reported in the government-wide financial statements, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense.

M. PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms investments are reported at fair value.

NOTE 2 – DEPOSITS AND INVESTMENTS

Deposits:

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2017, the District's total deposits were \$19,545,399; \$526,885 of this amount was insured by FDIC. The balance in the amount of \$19,018,514 was exposed to custodial credit risk as:

| Reconciliation to Financial Statements | | | |
|--|-----|----------|-------|
| Bank Balance | \$ | 19,545 | ,399 |
| Less: Outstanding Checks | | (449 | ,151) |
| Carrying Amount - Bank balances | | 19,096 | ,248 |
| Plus: Petty Cash | | | 150 |
| Less: Restricted cash for employee benefits | | (14 | ,294) |
| Total Cash Per Financial Statement | \$_ | 19,082 | 2,104 |
| | • | | |
| Uninsured and uncollateralized | 4 | \$ | _ |
| Collateralized with securities held by the pledging financial institution | | | - |
| Uninsured and collateral held by the pledging bank's trust department not in the | | | |
| District's name | _ | 19,01 | 8,514 |
| TOTAL | | \$ 19,01 | 8,514 |
| | | | |

Investments:

| my | esime | | | | | | | |
|----|-------|----|------|----|------------|---|----|-------|
| | СТ | 20 | 0017 | 41 | TN: 4 1 44 | 1 | 41 | C-11. |

As of June 30, 2017, the District had the following investments:

| | Fair value |
|---|--------------|
| Investments | |
| Restricted | |
| CD's Cash Surrender Value Life Insurance - restricted | 2,448,047 |
| | \$ 2,448,047 |

Interest Rate Risk

The District does have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk:

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investment subject to custodial credit risk.

Dair Malua

Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2017 the District's PLGIT investments were classified as cash equivalents and these were rated as:

| Investment | Standard & Poors |
|--------------------------------------|------------------|
| PA Local Government Investment Trust | AAAm |

Concentration of Credit Risk:

The District places no limit on the amount it may invest in any one issuer. The District has 100% of its total investments in Certificates of Deposit with various banks, all of which is within restricted investments.

NOTE 3 – REAL ESTATE TAXES AND DEFERRED REVENUE

The School District tax rate for the year ended June 30, 2017 was 12.56 mills (\$12.56 per \$1,000 of assessed valuation) as levied by the Board of School Directors. The schedule for real estate taxes levied for each fiscal year is as follows:

Levy Date - July 1

2% Discount Period - July 1 - August 31

Face Payment Period - September 1 – October 31 10% Penalty Period - November 1 – June 30

The School District allows residents to pay the real estate taxes on the installment basis. The total taxes at face can be paid in three monthly installments in August, September and October.

Real estate assessed values for the school year was as follows:

| | Assessable Base |
|---------------------|-----------------|
| Edinboro Boro | \$419,457,589 |
| Washington Township | \$363,899,300 |
| McKean Township | \$287,871,246 |
| Franklin Township | \$98,217,090 |
| McKean Borough | \$27,681,490 |

The School District, in accordance with GAAP, recognized the delinquent unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days was recognized as revenue and the balance deferred in the fund financial statements. The deferred revenue balance in the general fund consists of \$438,530 of deferred real estate taxes.

NOTE 4 – TAX ABATEMENTS

The School District has entered into tax abatement agreements with residential and commercial real estate owners under PILOT (Payment in Lieu of Taxes) and LERTA (Local Economic Revitalization Tax Assistance) programs.

For fiscal year ended June 30, 2017, the District abated real estate taxes totaling \$33,597 under the PILOT program, including the following tax abatement agreements that each exceed 10% of the total amount abated:

1. Edinboro Family Homes - 50% of tax abated \$31,434

For fiscal year ended June 30, 2017 the District abated real estate taxes totaling \$156,522 under a residential LERTA program. The District abated 100% of real estate taxes that would have otherwise been due on qualified new residential construction for a period of three years from the date construction was completed. None of the individual tax abatements exceeded 10% of the total amount abated.

For fiscal year ended June 30, 2017 the District abated real estate taxes totaling \$84,276 under the commercial LERTA program, including the following tax abatements that each exceeds 10% of the total amount abated:

| 1. | Washington Township Senior Housing LP | \$48,886 |
|----|---------------------------------------|----------|
| 2. | Middleboro Commons, LLC | \$21,641 |
| 3. | Tractor Supply Company | \$12,221 |

NOTE 5 – RECEIVABLES

Receivables at June 30, 2017, consisted of the following:

Interfund balances at June 30, 2017 consisted of the following individual fund receivables and payables:

| Interfund Balance | Due To | Due From | | | |
|----------------------|-----------------------------|------------------------------|---------|--|--|
| General Fund | \$ | \$ | 49,741 | | |
| Enterprise Fund | 49,741 | | | | |
| • | \$ 49,741 | \$ | 49,741 | | |
| Interfund Transfers | ransfer to her Funds | Transfer from Other Funds | | | |
| General Fund | \$ 405,000 | \$ | - | | |
| Capital Reserve Fund | | <u> </u> | 405,000 | | |
| | \$ 405,000 | \$ | 405,000 | | |

Interfund receivables and payables are temporary loans of cash between funds. The amounts are expected to be paid within the 2017-2018 fiscal year.

Interfund transfers consisted of the following:

The transfer out of the General Fund to the Capital Reserve Fund was to pay for future technology and building improvements. There was also \$35,000 in capital contributed to the cafeteria fund from the general fund that was used to help pay operating expenses.

NOTE 6 - CHANGES IN CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017, was as follows:

| | | Balance | | | | | | Balance |
|---|------------|-------------|-----------|-------------|-------------|-------------|------------|-------------|
| | | 7/1/16 | | Additions | | Deductions | | 6/30/17 |
| Go | vert | | | | | | | |
| Capital Assets, not being depreciated | | | | | | | | |
| Land | \$ | 516,402 | \$_ | <u>.</u> | \$ | - | | 516,402 |
| Capital Assets, being depreciated | | | | | | | | |
| Building and improvements | 5 | 5,684,124 | 982,218 | | (446,372) | | 56,219,970 | |
| Furniture and equipment | 15,157,989 | | | 403,593 | (| (1,032,560) | 14,529,022 | |
| Vehicles | 2,953,314 | | 695,424 | | | | 3,648,738 | |
| Total Capital Assets Being Depreciated | 73,795,427 | | 2,081,235 | | (1,478,932) | | 74,397,730 | |
| Less Accumulated Depreciation | | | | | | | | |
| Building and improvements | (3 | 2,725,768) | (| (1,421,052) | | 263,537 | (3 | 3,883,283) |
| Furniture and equipment | (1 | 3,364,410) | | (609,226) | | 971,930 | (1 | 3,001,706) |
| Vehicles | (| (1,906,814) | | (480,043) | | - | (| (2,386,857) |
| Total Accumulated Depreciation | (4 | 7,996,992) | (| (2,510,321) | **** | 1,235,467 | (4 | 9,271,846) |
| Capital Assets Being Depreciated, Net | 2 | 5,798,435 | | (429,086) | | (243,465) | 2 | 5,125,884 |
| Cost of Advanced Refunding, Net | | 7,171_ | | - | | (7,171) | | |
| Governmental Activities Capital Assets, Net | \$ 2 | 6,322,008 | \$ | (429,086) | \$ | (250,636) | \$ 2 | 5,642,286 |

Depreciation expense was charged to programs of the primary government as follows:

| Governmental Activities | | |
|---|-------|----------|
| Instruction | \$ 1, | ,573,548 |
| Instructional Student Support | | 218,548 |
| Administration & Financial Support | | 65,564 |
| Operations & Maintenance Plant | | 43,710 |
| Pupil Transportation | | 284,113 |
| Total Depreciation of Governmental Activities | \$ 2 | ,185,483 |
| Business-Type Activities | | |
| Food Service | \$ | 4,942 |
| Total Depreciation & Expense - Business-Type Activities | \$ | 4,942 |
| | | |

NOTE 7 – GENERAL LONG-TERM DEBT

During the year ended June 30, 2017, general long-term debt changed as follows:

| | Balance 7/1/2016 | | Additions | | Deductions | | Balance 6/30/2017 | | Due in One Year | |
|--------------------------|---------------------|------------|-----------|-----------|------------|-----------|----------------------|---------|--------------------|--------|
| Ref Bonds of 2008 | \$ | 2,495,000 | | | \$ 2 | 2,495,000 | \$ | _ | _\$_ | |
| Bonds Outstanding | | 2,495,000 | | | 4 | 2,495,000 | | - | | |
| | | | | | | | | | | |
| Other Liabilities | | | | | | | | | | |
| Post employment benefits | | 614,194 | | | | 113,560 | 4 | 500,634 | | - |
| Pension Liability | | 48,557,000 | | 7,541,000 | | | 56,0 | 98,000 | | |
| Compensated Absences | | 1,630,492 | | | | 22,869 | 1,6 | 607,623 | | 48,229 |
| Governmental Activities, | | | | | | | | | | |
| Long-Term Liabilities | \$ | 50,801,686 | \$ | 7,541,000 | \$ | 136,429 | \$ 58,2 | 206,257 | | 48,229 |

The payments of general long-term debt are to be funded by the General Fund. The District does not currently have any long-term liabilities for business-type activities.

General Obligation Bonds, Refunding Bonds of 2008 – The District issued General Obligation Bonds, Refunding, Series of 2008, dated August 1, 2008, in the amount of \$5,985,000 to refund the General Obligation Bonds, Series B of 1998 and to pay bond issuance costs. The District also contributed \$3,750,000 of its fund balance towards the refunding. The bonds bear interest at rates ranging from 3% to 5% with principal maturities from October 2008 through October 2016. This refunding resulted in a savings of approximately \$300,000. As of June 30, 2017, the bonds were paid off.

NOTE 8 – DEFINED BENEFIT PENSION PLAN

Plan Description

General McLane School District contributes to the Public School Employees' Retirement System (PSERS), a governmental cost-sharing multi-employer defined benefit pension plan. PSERS provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the system include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. The report is available in the publications section of the PSERS website at www.psers.pa.gov.

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 preserves the benefits of

existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E and Membership Class T-F. To qualify for normal retirement, Class T-E and Class t-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits, after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined by the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Member Contributions

Public School Employees' Retirement System has four membership classes: T-C, T-D, T-E and T-F. The rate of the contribution an employee pays toward his account is based on the date of hire and/or membership class selected as follows:

- Active members who joined the System prior to July 22, 1983, contribute at 5.25 percent. Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.250% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.
- Members who joined the System after June 30, 2001 and before July 1, 2011, contribute 7.50% (automatic membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.
- Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.50% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in the future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The School's contractually required contribution rate for fiscal year ended June 30, 2017 was 11.32% of covered payroll, actuarially determined as an amount that, when combined with the employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School were \$4,487,963 for the year ended June 30, 2017.

B. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources Related to Pensions

At June 30, 2017, the School reported a liability of \$56,098,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2015 to June 30, 2016. The School's proportion of the net pension liability was calculated utilizing the employer's one year reported covered payroll as it relates to the total one year reported covered payroll. At June 30, 2016, the School's proportion was .1132%, which was an increase from their prior year proportion of .1121% measured at June 30, 2015.

For the year ended June 30, 2017, the School recognized pension expense of \$4,487,963 in the general fund and \$178,465 in the food service fund. At June 30, 2017, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred | | Deferred |
|---|---------------|------------|--------------|
| | | Outflows | Inflows |
| | of Resources_ | | of Resources |
| | | | |
| Change of assumptions | \$ | 1,620,000 | |
| Net difference between projected and actual investment earnings | | 2,501,600 | 2,307,400 |
| (Increase) decrease in School's proportation of covered payroll | | - | <u></u> |
| Changes in proportion | | 1,545,400 | 366,400 |
| Contributions subsequent to the measurement date | | 4,487,963 | <u> </u> |
| - | \$ | 10,154,963 | \$ 2,673,800 |

\$4,487,963 reported as deferred outflows of resources related to pension resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended June 30: | |
|---------------------|-----------------|
| 2018 | \$ 1,139,000 |
| 2019 | 1,139,000 |
| 2020 | 1,690,000 |
| 2021 | 1,273,000 |
| Total | \$ 5,241,000 |

Actuarial assumptions

The total pension liability as of June 30, 2016 was determined by rolling forward the PSERS' total pension liability as of June 30, 2015 actuarial valuation to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2016:

- Investment return was adjusted from 7.50% to 7.25%.
- Inflation assumption was decreased from 3.0% to 2.75%.
- Salary growth changed from an effective average of 5.50%, which was comprised of inflation of 3.0%, real growth and for merit or seniority increases of 2.5%, to an effective average of 5.0%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were modified from the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back 3 years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For disabled annuitants the RP-2000 Combined Disabled Tables (male and female) with age set back 7 years for males and 3 years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in June 30, 2016 valuation were based on the experience study that was performed for the five year period ending June 30, 2015. The recommended assumption changes based on this experience study were adopted by the PSERS Board at its June 10, 2016 Board meeting, and were effective beginning with the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the PSERS Board. Plan assets are managed with a long term objective of achieving and maintain a fully funded status for the benefits provided through the pension.

| the continuation of the co | Target | Long-Term Expected Real |
|--|------------|----------------------------|
| Asset Class | Allocation | Rate of Return |
| Global public equity | 22.5% | 5.3% |
| Fixed income | 28.5% | 2.1% |
| Commodities | 8.0% | 2.5% |
| Absolute return | 10.0% | 3.3% |
| Risk parity | 10.0% | 3.9% |
| Infrastructure/MLPs | 5.0% | 4.8% |
| Real estate | 12.0% | 4.0% |
| Alternative investments | 15.0% | 6.6% |
| Cash | 3.0% | 0.2% |
| Financing (LIBOR) | -14.0% | 0.5% |
| | 100.0% | |

The above was the PSERS Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2016.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is -1 percentage point lower (6.25%) or 1- percentage point higher (8.25%) than the current rate:

| | | Current | |
|---|---------------|---------------|---------------|
| | | Discount | 1% |
| | 1% Decrease | Rate | Increase |
| | 6.25% | 7.25% | 8.25% |
| School's proportionate share of the net pension liability | \$ 68,623,000 | \$ 56,098,000 | \$ 45,574,000 |

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.us.

NOTE 9 – COMPENSATED ABSENCES

Vacation

School District employees who are required to work on an eleven month or twelve-month schedule are credited with vacation at rates which vary with length of service or job classification. Vacation must be used by June 30th of each fiscal year.

Sick Leave

Most School district employees are credited with ten to twelve sick days annually. Upon retirement, teachers with fifteen years of service with the District may be paid \$110 per day for unused sick days earned and accrued within the District with no maximum. Full time supervisors with fifteen years of service with the District may be paid \$55 per day for unused sick days earned and accrued within the District with no maximum. Full time salaried support staff with fifteen years of service are paid \$55 per day for each unused sick day with a maximum of \$5,500. Bus drivers with fifteen years of service are paid \$25 per day for each unused sick day with a maximum of \$1,500.

Current accumulated leaves are recorded as expenditures in the period taken. Termination compensation payable in future years is recorded as compensated absences. At June 30, 2017, the liability for compensated absences was \$1,607,623.

NOTE 10 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS

Plan Description

Former employees, who retire from the District and eligible dependents, may continue to participate in the district's self-insured health and hospitalization plan for medical, drug, dental and vision coverage. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The benefits provided under this defined benefit plan are provided for a fixed number of years determined at the time of retirement based on the number of years worked for the District. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible.

Funding Policy

Contribution requirements are negotiated between the School and union representatives. Currently the School contributes 100% of the cost of the healthcare plans. The Plan is financed on a pay-as-you-go basis.

The District purchased life insurance policies on all employees eligible for the early retirement plan with salaries over \$44,000. The District is the beneficiary on these policies and will use the death benefits to fund the early retirement plan. The cash surrender value of these policies was \$2,448,047 as of June 30, 2017. The District is researching the feasibility of transferring the policies into a Section 115 irrevocable trust. This transfer will restrict the use of these funds for the OPEB funding purposes only.

A reserve of the District's General Fund Balance equal to the cash surrender value of the life insurance policies has been provided at June 30, 2017. This amount is shown as restricted cash and cash equivalents on the government-wide statement of net assets.

Annual OPEB Cost and Net OPEB Obligation

The School's annual OPEB cost (expense) is calculated based on the annual required contributions (ARC) of the District, an amount determined on an actuarially determined basis in accordance with the parameters of GASB Statement No 45. The ARC represents a level funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actual liabilities (or funding excess) over a period not to exceed 30 years.

The following table shows the components of the school's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the school's net OPEB obligation to the Plans;

| Annual required contribution \$ | 228,077 |
|---|-----------|
| Adjustment to prior years actual contribution | |
| Annual OPEB Cost | 176,920 |
| Contributions made | (290,750) |
| Increase in net OPEB obligation | (113,830) |
| Net OPEB Obligation - beginning of year | 614,194 |
| Net OPEB Obligation - end of year \$ | 500,364 |

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year are as follows:

Funded Status and Funding Progress

| | | Percentage of | | | | | |
|---------------|------------|---------------|------------------|------------|--|--|--|
| | Annual | Employer | Annual OPEB | Net OPEB | | | |
| Year Ended | OPEB Cost | Contribution | Cost Contributed | Obligation | | | |
| June 30, 2017 | \$ 228,077 | \$ 290,750 | 127.48% | \$ 500,364 | | | |
| June 30, 2016 | \$ 228,077 | \$ 306,359 | 134.32% | \$ 614,194 | | | |
| June 30, 2015 | \$ 304,917 | \$ 98,171 | 32.20% | \$ 755,393 | | | |
| June 30, 2014 | \$ 304,917 | \$ 180,397 | 59.16% | \$ 596,314 | | | |
| June 30, 2013 | \$ 298,934 | \$ 140,299 | 46.93% | \$ 519,926 | | | |
| June 30, 2012 | \$ 298,934 | \$ 168,321 | 56.31% | \$ 398,149 | | | |

As of June 30, 2016, the most recent actuarial date, the plan was zero percent funded. The actuarial accrued liability for benefits was \$1,349,905, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$11,351,408, and the ratio of unfunded actuarial accrued liability to the covered payroll was 11.89%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of benefit costs. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The following assumptions were made:

In the June 30, 2016 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions included: a 4% investment rate of return and annual healthcare cost trend rate of 9% initially, reduced by decrements to an ultimate rate of 5% in 2015 and later for medical insurance. The UAAL is being amortized on a level dollar basis over a 10 year period. The remaining amortization period at June 30, 2016 was 10 years.

NOTE 11 – SELF-INSURANCE PLAN

The District's self insurance plan (the Plan) pays dental, accident, vision and health insurance coverage for District employees. Retired employees are also covered by the plan provided they pay a monthly premium to the District. The District contributed \$1,058 per month per covered employee to the Plan. Claims were paid by

a third party administrator acting on behalf of the District. The District was protected against unanticipated catastrophic individual or aggregate loss by stop-loss coverage carried through Aetna. Stop-loss coverage was in effect for individual claims exceeding \$90,000 with an annual aggregate loss of \$1,000,000 and unlimited per lifetime.

The claims liability of \$432,100, included in accrued liabilities of the general fund at June 30, 2017, is based on the requirements of Governmental Accounting Standards Board (GASB) No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements, and the amount of the loss can be reasonably estimated. The above liability includes an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on inflation, changes in legal doctrines and damage awards, the process used in computing the claims liability does not necessarily result in an exact amount. Changes in claims liability are as follows:

| Claims liability - June 30, 2016 | \$ 432,100 |
|----------------------------------|-------------|
| Current year claims incurred | 3,019,179 |
| Claim payments | (3,019,179) |
| Claims liability - June 30, 2017 | \$ 432,100 |

NOTE 12 – NOTE PURCHASE AGREEMENT

The District entered into an agreement with Home Rule Township of Washington, whereas the District intends to purchase Guaranteed Revenue Term Notes that the Township intends to issue in the amount of \$1,500,000. The Township will use the proceeds of the notes to finance the costs associated with a sewer extension along Route 99 in the Township of Washington.

The interest rate the Township will pay the District on these Notes shall be 1% per annum compounded monthly from the first disbursement date until the earlier of the date of completion of the project or December 31, 2014. The interest rate then varies every 5 years until maturity in 20 years. Interest is payable on the first day of each quarter, commencing on the first day of the first quarter following the first disbursement date.

Washington Township has borrowed \$714,004 for this project as of June 30, 2017.

NOTE 13 - RISK MANAGEMENT

The District is exposed to various risks of loss related to theft of, damages to, and destruction of assets. The District has purchased various insurance policies to safeguard its assets from risk of loss. There have been no significant reductions in coverage from prior year and in the past three years settlements have not exceeded insurance coverage.

NOTE 14 – LITIGATION

The District is contingently liable with respect to lawsuits and other claims that arise in the ordinary course of its operations. Management believes that any liability arising from such claims would be immaterial to the financial statements.

NOTE 15 - CONTINGENT LIABILITIES

Grant Programs

The School District participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The School District is potentially liable for any expenditures, which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance, which would result in the disallowance of program expenditures.

NOTE 16 – SUBSEQUENT EVENTS

There were no subsequent events that needed to be disclosed in the financial statements. These financial statements considered subsequent events through November 3, 2017, the date the financial statements were available to be issued.

GENERAL MCLANE SCHOOL DISTRICT SCHEDULE OF REVENUES AND OTHER FINANCING SOURCES COMPARED WITH BUDGET - GENERAL FUND FOR THE YEAR ENDED JUNE 30, 2017

GENERAL MCLANE SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED JUNE 30, 2017

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards includes the federal award activity of General McLane School District under programs of the federal government for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the schedule presents only a selected portion of the operations of General McLane School District, it is not intended to and does not present the financial position, changes in net assets or cash flows of General McLane School District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of *Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) where in certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

For purposes of charging indirect costs to federal awards, the School has not elected to use the 10% de minimis cost rate.

NOTE 3 – FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. At June 30, 2017, the organization had food commodities totaling \$4,981 in inventory.

Independent Auditor's Report on Internal Control Over Financial Reporting

And on Compliance and Other Matters Based on an Audit of

Financial Statements Performed in Accordance with

Government Auditing Standards

Board of Directors General McLane School District Edinboro, PA

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of General McLane School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise General McLane School District's basic financial statements, and have issued our report there on dated November 3, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered General McLane School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of General McLane School District's internal control. Accordingly, we do not express an opinion on the effectiveness of General McLane School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the General McLane School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For
Each Major Program and on Internal Control Over Compliance
Required By the Uniform Guidance

Board of Directors General McLane School District Edinboro, PA

Report on Compliance for Each Major Federal Program

We have audited General McLane School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of General McLane School District's major federal programs for the year ended June 30, 2017. General McLane School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements with federal statutes, regulations, and the terms of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of General McLane School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the General McLane School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide legal determination of General McLane School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the General McLane School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the General McLane School District is responsible for establishing and maintaining effective internal control over compliance with requirements referred to above. In planning and performing our audit, we considered the General McLane School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of General McLane School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
