How to post images as Schoology Updates in 3 steps

Go to the Resource folder that contains the images you want to use.

1. Right click on the photo link & select "Open in new tab"

2. Go to the new tab and right click on the photo & select "Copy Image"

3. Right click in the update box and select "Paste"

Once the image is there, you can click on it to change the size by dragging the handles (sometimes I have to drag it a little to get the handles to show). Add text, links, etc.
